

Guide to combating illegal labour

Aim 5: Establish balanced, long-term relationships with our partners, suppliers and subcontractors

- > Action 5.4: Implement procedures to combat illegal labour

 **Entity:** Bouygues Entreprises France-Europe

 **Operational unit:** DV Construction

Overview of the Initiative

- > **Objective:** To produce a guide to combat illegal labour.

- > **Description:**

The guide to preventing illegal labour by DV Construction is available. It is the result of the work of 17 employees who came together as part of a work group on the Z commitment by DV 2010.

The challenge was great. The aim was to come up with a complete tool to eradicate the risk of illegal work situations on our work sites. After working on the applicable rules and listing the documents to be obtained from our partners, the guide presents the procedure for access to work sites.

The guide responds efficiently to the needs of training in construction. All updates to rules and regulations will be integrated immediately.

The guide is available on the intranet and in a paper version. A special Construction issue will be widely distributed on work sites. This will summarise the rules to be applied.
