

Mobility charter

 **Aim 6: Ensure that our businesses respect the environment (in general)**

Action 6.10: Make employees aware of everyday behaviours that protect the environment

 **Entity:** Bouygues Entreprise France Europe

 **Operational unit:** Losinger

Overview of the Initiative

> **Objective:** to reduce fuel consumption and greenhouse gas emissions (particularly CO₂) during travel.

> **Description:** **4 software applications** are available for use by all personnel to encourage them to use their vehicle alone less often.

- 1) **Car share** software
- 2) **CFF ticketing (SNCF)** software
- 3) Car network operation software: "**Mobility**"
- 4) **Video conference room management** software

These 4 software applications are completed with Losinger's commitment to develop its fleet of vehicles running on natural gas, Bioethanol and hybrid systems.

 **Possible partner(s):**

 **Start date:** October 2007

 **Indicator:** KM covered/personnel vehicle (-5% over 12 months)
