

## **BOUYGUES CONSTRUCTION WINS A NEW HOSPITAL CONTRACT FOR ALMOST 260 MILLION EUROS**

Bouygues Construction recently signed the contract as main contractor for the construction of Amiens hospital. The project awarded by Amiens-Picardie University Hospital amounts to almost 260 million euros.

Designed by the Aart architect firm, this new 126,000-sq metre hospital complex will be built by a consortium composed of several Bouygues Construction subsidiaries\*. It will include 791 beds, 30 operating theatres, and a 500-space basement car park. The project includes the construction of a new building in south Amiens, which will group together the Northern hospital and several units that are currently scattered around different parts of the city (maternity unit, ophthalmology unit, etc.).

Construction work, which will start in September, will last four years (47 months) and, at its peak, will involve more than 600 people.

In 2008 and early 2009, the Bouygues Group won new contracts and continued the construction of several hospital projects in France and abroad, including Bourgoin-Jallieu hospital complex (a public-private partnership) and hospitals in Toulouse, Saint-Dié, Lorient and Metz in France, Surrey hospital in Canada (a public-private partnership) and Broomfield hospital in the UK (a public-private partnership). In April 2009, the Group won a €54-million contract for construction of the core and shell of Calais hospital.

Bouygues Construction has been very active in the hospital sector since the early 1980s, and has built up extensive expertise in these complex operations. The Bouygues Group is a major player in this field, capable of working at all levels (financing, design, construction, mechanical & electrical services, and operation/maintenance) and under different forms of contract (separate work packages, main contractor, design-and-build, or public-private partnerships).

\* *The consortium consists of Quille (lead firm), Norpac, Bouygues Bâtiment Ile-de-France and Brézillon.*

Bouygues Construction is a global leader with top-ranking positions in the building, civil works and electrical contracting/maintenance markets. It combines the power of a large group with the responsiveness of a network of local companies which deliver innovative solutions for the financing, design, construction, operation and maintenance of buildings and infrastructure. Bouygues Construction employs 53,700 people in 60 countries and generated sales of 9.5 billion euros in 2008.

## APPENDIX

## MAIN HOSPITAL PROJECTS IN PROGRESS

**Calais Hospital (2009-2012)**

*This contract, which was signed in April, consists in the construction of the core and shell of Calais Hospital. The hospital will include 541 beds, 9 operating theatres, a Maternity & Children's unit, etc. Construction work, which started in April, will last for three and a half years (40 months) and, at its peak, will involve 200 people.*

- *Contract sum: 54 million euros*
- *Client: Calais Hospital*

**Toulouse Hospital (2008-2012)**

*Construction of the Pierre-Paul Riquet building for Toulouse University Hospital. With a total floor area of 82,000 sq metres, it will group together three clinical units: the Locomotor Institute, the Neurosciences unit and the Cephalic unit. This building will include 574 beds and 23 operating theatres.*

- *Contract sum: 82 million euros*
- *Client: Toulouse University Hospital*

**Lorient Hospital (2008-2012)**

*Structural works for a series of buildings including 540 beds, a clinical support and theatre block, a logistics building and an intern accommodation unit.*

- *Contract sum: 57 million euros*
- *Client: Bretagne Sud Hospital*

**Surrey Hospital, Canada (public-private partnership, 2008-2011)**

*Financing, design, construction and 30 years' operation/maintenance of a hospital building in Surrey, British Columbia (Canada). This 30,000-sq metre project shall consist of an outpatient and day-surgery building. The Group shall be in charge of the entire operation and maintenance of the building for the period of the concession (30 years).*

- *Contract sum: 233 million euros (168 million euros for construction and 65 million euros for operation/maintenance)*
- *Client: Fraser Health Authority*

**Broomfield Hospital, UK (public-private partnership, 2008-2011)**

*Refurbishment and extension of Broomfield Hospital (in South-East England, near London). The contract also includes installation of the network infrastructure and all the medical equipment. The new hospital will have more than 330 beds, five day case operating theatres, three endoscopy rooms, a maternity department with two operating theatres and a neonatal intensive care unit. The Group will be in charge of operation and maintenance of the building for 33 years (building maintenance, energy and utilities management, linen and laundry, catering, etc.).*

- *Contract sum: 400 million euros (200 million euros for construction and more than 180 million euros for operation/maintenance)*
- *Client: Mid-Essex NHS Hospital Services Trust*

Hubert Engelmann: +33 1 30 60 58 68 - h.engelmann@bouygues-construction.com

**Saint-Dié Hospital (2008-2011)**

*Extension and rehabilitation of Saint Charles de Saint-Dié Hospital. This project includes the construction of a new ward unit on the hospital site, the rehabilitation of a part of the existing hospital (the entrance lobby and the North building), and the creation of two operating theatres.*

- Contract sum: 47 million euros
- Client: Saint Dié Hospital

**Bourgoin-Jallieu Hospital (public-private partnership, 2007-2010)**

*Financing, design, construction and 32 years' operation/maintenance of the new Bourgoin-Jallieu Hospital (in the French Alps). This hospital comprises a Maternity, Gynaecology and Paediatrics block, ward blocks, a clinical support and theatre block (with operating theatres, obstetrics rooms, accidents and emergency reception, etc.) and an ancillary medical and accommodation services block (with pharmacy, sterilisation, laboratory, catering, shops, etc.). A High Environmental Quality (HQE®) policy is integrated into every stage of the project.*

- Contract sum: 230 million euros (120 million euros for construction and 110 million euros for operation/maintenance)
- Client: Bourgoin-Jallieu Hospital

**Metz-Thionville Hospital (2006-2010)**

*As part of the Hospital 2007 plan, construction of a hospital grouping together with a central clinical support and theatre block and three wards organised by specialty. The 80,000-sq metre hospital includes 640 beds and 16 operating theatres. It is organised around four major buildings: a central clinical support building, a building dedicated to surgery, a building dedicated to neurology, and a building dedicated to cardio-vascular specialties, haematology, oncology and pneumology.*

- Contract sum: 173 million euros
- Client: Metz-Thionville Regional Hospital

**Clermont-Ferrand University Hospital (2006-2009)**

*Main contractor for construction of the new Clermont-Ferrand Hospital. With a capacity of 565 beds, it will be organised around a Maternity & Children's unit, a ward block and a clinical support and theatre block including 14 operating theatres, laboratories, etc. This entirely computerised building incorporates new medical work methods with more outpatient care.*

- Contract sum: 140 million euros (Bouygues Construction's share: 80 million euros)
- Client: Clermont-Ferrand University Hospital

**Evreux — Eure Seine Urban Area Hospital (2006-2009)**

*Construction of the new Evreux Urban Area Hospital, the third hospital in the Haute-Normandie region. It will have a higher capacity than the present hospital, with a floor area of 53,000 sq metres, 461 beds, 9 operating theatres, and 862 parking spaces. The building shall have High Environmental Quality (HQE®) certification.*

- Contract sum: 146 million euros (Bouygues Construction's share: 91 million euros)
- Client: Evreux – Eure Seine Urban Area Hospital
