42

organisations supported
in total

49

committed sponsors

€403,974

allocated by the Foundation to the projects

11

countries

Health and Disability projects

Education projects

Employment projects

The Terre Plurielle Foundation is rooted in the urge to take action... To harness the incredible drive of our teams. To give more purpose to our presence, by committing to making a better life for people in the communities where we operate. Year after year, we have helped our employees look for this purpose, supporting them in their projects and becoming citizens of the world together.

In 2021, the Foundation supported 42 projects, alongside dynamic organisations working in the field.

It provided its expertise and technical and financial support in education, employment, the fight against vulnerability, health and disability.

STÉPHANE VALLÉE

Human Resources Director
Bouygues Energies & Services
General Manager of Terre Plurielle

"Despite ongoing difficulties connected to the Covid crisis, Terre Plurielle maintained its tireless commitment. Its sponsors redoubled their investment and their efforts to bring every project to fruition. The events of the year proved that altruism and generosity are boundless. Thank you to all of you who worked so hard for the most vulnerable people!"

"In our Foundation, people experience solidarity in two different ways. Most obviously, there is the experience of our sponsorship beneficiaries. But then there is the experience of our employees who tell us how enriching they find their work on the projects, how proud they feel to have been useful. More than ever, our mission has purpose. For everyone."

CLAIRE BOILLEY-FORESTIER

CSR Manager
Bouygues Construction
President of the Selection Committee of Terre Plurielle
